

This Health & Safety Policy Statement defines the policy of Rail Tech Group Railway & Signal Engineering Ltd (RTG) and its commitment to safety throughout all of the companies' activities.

RTG is fully committed to establishing a safe working environment for all employees, contractors and members of the public during the course of all works conducted by the company.

It is committed to providing adequate resources and equipment to achieve the highest safety standards. This includes appropriate equipment, security, training, monitoring, audit and review.

RTG is dedicated to the production and briefing of procedures and instructions that detail safe methods in which all company operations are conducted. We ensure that all employees are aware and compliant with their safety responsibilities.

There is a culture within RTG in which staff are free to express concerns regarding safety and we actively encourage initiatives to promote enhancement of procedures and practices.

Safety is the responsibility of everyone employed by RTG and the company expects all personnel to be compliant with Health and Safety legislation. All employees have to ensure activities conducted on behalf of RTG are in accordance with safe procedures and standards. Compromise to safety is prohibited.

The company will review this Safety Policy Statement at least annually, to ensure that the content reflects RTG's commitment to safety and accommodates any changes that may be required.

Mr S E Jamieson
Managing Director
