Dear Simon

WP02 NLL Stage 1 and Stage 2 Commissioning

18th December 2010 – 4th January 2011

I would like you to pass on my thanks to you and all your staff for the successful delivery of the Christmas and New Year Blockade.

Of particular note, of course, is the commissioning of the stages 1 & 2 signalling systems. A job exceptionally well done and handed back early. A professional delivery from beginning to end.

Everyone will be aware that most of our work was carried out in severe weather conditions and this is a further testament to the 'can do' ethos of the overall team.

It will probably not have been apparent to most that there were serious challenges which were encountered during the blockade but these were all professionally managed and resolved and in the main related to existing infrastructure issues.

The commitment and involvement for this project have been a success and we look forward to working on the commissioning of WP 02 Stage 4 in the same way that this Commissioning has been briefed and the excellent response of the staff that you supplied.

Once again thank you for all your hard work.

Yours sincerely

Steve Woodman
Senior Operations Manager
